The following circular has just been issued from the National Bank Redemption Division of the Treasury Department :

In view of the risk to which assistant treasurers are subjected in collecting drafts, and in the absence of any law requiring them to perform that service for this agency, he Secretary of the Treasury directs that drafts on New York, Boston, and Philadelphia be no longer accepted in reimbursement for national bank notes redeemed. Payment may, however, be made by deposits to the credit of the Treasurer's currency transfer account in those cities, as stated in Form F. Banks outside of those cities may make the deposits through their correspondents, who may forward the certificates directly to me.

In order to facilitate the issue of new circulating notes by the Controller of the Currency in return for national bank notes redeemed by this agency the redeemed notes are in all cases delivered to the Controller on the same day that my calls are made. The issue of new notes is under the exclusive control of the Controller, and any inquiry in regard thereto should be addressed to

De'ays in forwarding new notes to banks are often due to the exhaustion of the new notes in the Controller's bands and to their failure to order an additional supply in proper season. Banks may avoid such delays by keeping an account of the amount of their new notes in the Controller's hands and by ordering additional supplies at least sixty days before the exhaustion of previous orders. The cost of printing the new notes is

detraved by the United States. National bank notes unfit for circulation may be forwarded by national banks to reimburse me for their notes redeemed, as well as in anticipation of calls, thus saving the express charges on the legal-tender notes, which would otherwise be returned. The packages should be marked "For credit of tive per cent. fund."

United States currency and national bank notes, whether for redemption or credit, should always be forwarded in separate packages, properly marked with the amount and the police, several of whom were nature of the contents, and should be accomthe vicinity at the time. It was panied by separate letters of advice by both mail and express. United States notes and national bank notes may be forwarded under ecry, was severely burned a night the Government contract to reimburse me for notes redeemed in any amounts for which the calls may be made. National bank notes for credit in anticipation of calls, as well as for redemption, must be sent in even thousands of dollars. The wrappers of the packages should state whether they contain United States notes or national bank notes, and whether the contents are " for redempwashier. The Order is said to be in a very tion" or "for credit of five per cent. fund. Every remittance, of whatever nature, should be accompanied by a separate letter of advice.

The redemption agency debits national banks with the full amount of their notes untit for circulation delivered to the Controller whether the full amount is rei sued by him or not. Banks may avoid confusion between their five per cent, and circulation accounts by crediting the redemption agent and charging the Controller with the amount so delivered, and by crediting the Controller on the receipt of new notes. Only notes clearly unfit for circulation are delivered to the Controller for destruction.

The law requires notes fit for circulation redeemed by this agency to be returned to the respective associations by which they were issued, and no other disposition can be was in the front end of the made of them. It would not be to the advantage of banks for this agency to send elore he could recover himself such notes to their correspondents in the suddenly capsized, throwing the large cities, as they would speedily be re-

Two men succeeded in capturing the murderer while stealing a horse to make his escape, but he got away and has not been seen since. There is great excitement in the neighborhood, and everybody is on the alert for Mesimer. No doubts are entertained as to his capture, as he is easily recognized, having a club foot. A reward of five bundred dollars has been effered by the relatives of the murdered woman for his capture.

The drunken soldier became enraged and thrust his bayonet into his adversary, killing him instantly. The soldier was druck, but the other man was said to have been sober. The murder was without provocation. King was a respectable colored man. The murderer was arrested and lodged in jail.
